Re: Peter F. Walter

To Whom It May Concern:

This letter of recommendation is being furnished for Peter F. Walter, whom I have known for over twelve years now. Mr. Walter has served and continues to serve as my spiritual advisor, consultant and friend. Not a day goes by where I have doubted the wisdom of my decision to have him as my personal mentor. He has proven to be of tremendous value to me. It is my impression that he intends to lead a life of public service.

He has demonstrated excellent verbal and written communication skills particularly in English, German and French. Mr. Walter is a life long learner, an extremely active scholar of various disciplines including but not limited to the arts and humanities. His scholarly accomplishments are far too numerous to attempt to reference here. This very fact serves as a testimony to the very seriousness that Mr. Walter takes with regard to academic study.

It has been brought to my attention that Mr. Walter is applying for the Ph.D. program in the discipline of Philosophy. I give my full support to him as he embarks on his journey towards the acquisition of an advanced degree in said subject matter. Your higher learning institute will greatly benefit from this seasoned and accomplished intellectual.

Sincerely,

Nelson
