To Whom it May Concern

I became acquainted with **Mr. Pierre Fritz Walter** in the year 2000. We met in Bali, Indonesia where he was a neighbor of mine in an adjoining villa, he was building. Pierre was a corporate trainer and entrepreneur at that time. We became friends and eventually when he decided to leave Bali, I purchased his villa property from him

I always found in all dealings with Pierre that he acted in a professional nature and was courteous and reliable. I wish him all the best in whatever venture he chooses and I am sure with his strong academic leaning he will be successful.
