Re: Peter F. Walter

To Whom It May Concern:

This letter of recommendation is being written for Peter F. Walter, whom I have known for the last 12 years. He has served as my long time spiritual advisor, consultant and friend. Mr. Walter has demonstrated the highest integrity with respect to his character. Not a day goes by where I have doubted the wisdom of my decision to have him as my personal mentor. He has proven to be of tremendous value to me. I have a strong impression that he intends to lead a life of public service. He is very reliable, welcoming, friendly and has a strong desire to help people reach their full potential through his personal coaching program.

Mr. Walter has excellent verbal and written communication skills particularly in the following languages: English, German and French. Mr. Walter is a life long learner, an extremely active scholar of various disciplines including but not limited to the arts and humanities. His scholarly accomplishments are far too numerous to attempt to reference here. This very fact serves as a testimony to the very seriousness that Mr. Walter assumes with regard to academic study.

Sincerely,

Nelson
