Director  
AUTOHUNA INSTITUTE

Dear Dr. Walter,

Thank you very much for a job very well done.

Your training session have been very well perceived by both our management as well as supervisory level staff.

They have thoroughly enjoyed the 'other kind of approach' of training which you have provided them with and are eager to put the newly taught matters in to practice.

For me personally; I can only join in with the above and like to say that it has been a pleasure working with you.

I look forward to, hopefully, a future mutual encounter soon and like to wish you all the success for yourself and your organization.

Yours sincerely,
